

Kashmiris are observing a Black Day to mark India's illegal occupation of J&K. For 73 years, Indian forces have turned IIOJK into an open prison, subjugating Kashmiri people, killing, raping & brutalising them but their resistance continues. Pakistan stands with them-

We stand with Kashmiris till their right to self-determination is recognized. Solution to Kashmir dispute is anchored in UNSC resolutions. History and time stand with them too. No effort by Indian Hindutva oppressive regime can re-write the destiny of a people against their will.

Recent warmongering by Indian politicians reflects the expansionist mindset of the BJP. Recent remarks by Indian NSA about fighting wars in neighbouring countries is a vindication of Pakistan's stand and a tacit acceptance of Indian involvement in terrorism inside Pakistan.

Terrorist incidents within Pakistan point that this sinister plan is already being implemented. We are alive to this threat & our security forces, as well as the brave people of Pakistan are committed to winning against all nefarious designs by our extremist neighbour.
